**TANF payment + cooperation incentive** - This is the TANF payment standard plus the cooperation incentive special need for clients who are cooperating with their case plan.

**Adjusted income/payment standard** - This is countable income minus deductions.

**Countable income limit** - This is the amount of countable income remaining after allowable exclusions.

**Minimum contributions** - This column is used to determine the amount excluded from lodger self-employment income for MAA, MAF and TANF clients.

**OHP** - The 201% is only for OHP-CHP clients; the 185% standard is only for OHP-OPP; the 133% standard is for OHP-OP6 clients. The 100% standard covers OHP-OPC and OHP-OPU clients.

**HKC** - The HKC subsidy level depends on the family income. HKC families with income at or above 301% FPL do not qualify for a subsidy.
